

BIOGRAPHICAL SKETCH

I am a Professor of Professional Practice in the Department of Public Health, Food Studies, and Nutrition at Syracuse University. I teach graduate and undergraduate courses related to nutritional biochemistry, nutritional genomics, and human metabolism. I maintain an active research program on vertebrate metabolism, energetics, reproductive physiology, and embryonic development. My work focuses on how light intensity, wavelength, and photoperiod alter adult physiology, with subsequent consequences for metabolic health. I have specific interest in how different wavelengths of light stimulate the endocrine system to modify hormonal regulation of lipolytic and lipogenic metabolic pathways. I have ongoing collaborative projects that include studies on latitudinal variations in avian metabolism (both parental and embryonic) and the effects of environmental variation on endocrine control of ovulation. The unifying concept underlying all of my research is the link between environmental influences (e.g., photoperiod, food availability, dietary components and substrate availability) and genotype and phenotype (e.g. changes in the timing of embryonic development and changes in reproductive physiology). I conduct my research in accordance with the One Health Initiative, a worldwide strategy for expanding interdisciplinary collaborations and communications in all aspects of health care for humans, animals and the environment.

EDUCATION

Ph.D.	Syracuse University, Department of Biology	2002
M.S.	SUNY Env. Sci. and Forestry, Dept. Environmental and Forest Biology	1995
B.S.	SUNY Env. Sci. and Forestry, Dept. Environmental and Forest Biology	1992

Graduated *Summa cum Laude*

EMPLOYMENT

2014-present, Professor of Professional Practice, Dept. of Public Health, Food Studies, and Nutrition, Syracuse University David B. Falk College of Sport and Human Dynamics, Syracuse, New York 13244

- Teaching includes courses in nutritional biochemistry, metabolism, nutritional genomics, advanced nutrition

2008-2014, Associate Professor of Biology, School of Science, The Pennsylvania State University at Erie, the Behrend College, Erie, PA

- Taught General biology, Human physiology, Comparative anatomy, Medical Terminology (on-line), Human A&P, Exercise physiology

2002-2008, Assistant Professor of Biology, School of Science, The Pennsylvania State University at Erie, the Behrend College, Erie, PA

2000-2002, Assistant Professor of Biology, SUNY College at Potsdam, Potsdam, NY

- Taught General biology, Human physiology, Comparative anatomy, Skeletal-muscular biomechanics.

1996-2000, Graduate Teaching Associate, Syracuse University, Syracuse, NY

- Human physiology, Vertebrate anatomy

1995-1996, Research Assistant, SUNY College-ESF, Syracuse, NY

1993-1995, Teaching Assistant, SUNY College-ESF, Syracuse, NY

- Comparative physiology, Comparative anatomy,

VanDruff, LWS. and M Pike (né Voss). Wildlife and Habitats of the Onondaga Lake Area. Onondaga Lake Management Conference, Syracuse, NY. (September 1992).

Manuscripts in Review

A framework to assess evolutionary responses to anthropogenic light and sound. Swaddle, J, Aschehoug, K, Barber, J, Cooper, C, Dominoni, D, Francis, CD, Goodwin, S, Kawahara, AY., Kyba, C, Luther, D, Shannon, G, Spoelstra, K, Voss, MA, and T Longcore. To be submitted to Trends in Ecology and Evolution, September 2014.

Manuscripts in Preparation

A different view of clutch size patterns as evidence for the photoperiodic regulation of clutch size. Cooper, CB, Voss, MA, Winkler, D.

Hidden rhythms in avian incubation behavior. Voss, M.A., Cooper, C.B. *Biology Letters*,

Insights into the pace of life: perspectives from the avian embryo. Martin, M., Cooper, C.B., Voss, M.A., Ardia, D., Green, D.

Cooper, C.B. and M. A. Voss. Homology and scaling of avian incubation behavior.

Schnars, J.L. and M.A. Voss. The effects of PCBs on carbon dioxide production in neonate snapping turtles (*Chelydra serpentina serpentina*) Hatchlings.

Schnars, J.L. and M.A. Voss. A non-invasive technique to estimate mercury levels in the common snapping turtle (*Chelydra serpentina*).

HONORS AND AWARDS FOR SCHOLARSHIP OR PROFESSIONAL ACTIVITY

American Ornithological Union Elective Member 2012
Faculty Member of the Year, Penn State Behrend School of Science, 2007
Council of Fellows Excellence in Teaching Award, Penn State Erie, Behrend College, 2005
Nominated, Guy W. Wilson Excellence in Academic Advising Award, Penn State Erie, Behrend College, 2003 & 2005
Nominated, Council of Fellows Faculty Excellence in Outreach Award, Penn State Erie, 2003
Graduate School Outstanding Teaching Assistant Award, Syracuse University, 1998
American Women in Science Education Foundation Citation of Merit, 1998
Canadian Society of Zoologists Helen I. Battle Award, 1997
Outstanding Graduate Teaching Award, SUNY-ESF, 1994
Leroy C. Stegeman Scholar (Invertebrate Biology) SUNY-ESF, 1994
Edna Bailey Sussman Research Scholarship SUNY-ESF, 1994
Ralph T. King Award in Wildlife/Fisheries Biology SUNY-ESF, 1993

PRESENTATIONS

Eggshell microstructure and temperature fluctuation facilitate microbial invasion during incubation. 2012. B. Potter, B. Carlson, K. Pander, MA Voss (presenter). 5th North American Ornithological Conference Vancouver, BC, CA, August 14-18, 2012

Latitudinal, Seasonal, and Photoperiodic trends in clutch size: the importance of peripheral clocks in songbird. 2012. C. Cooper (presenter), MA Voss, P. Bartell, V. Cassone. 5th North American Ornithological Conference Vancouver, BC, CA, August 14-18, 2012

Using the avian nest as a model system to explore biodiversity. MA Voss (presenter), M Campbell, B. Potter. Wilson Ornithological Society, Kearney Nebraska, March 2011

Light increases the rate of embryonic development: implications for latitudinal trends in incubation period. CB Cooper (presenter) & MA Voss. 25th International Ornithological Congress. Campos do Jordao, SP, Brazil August 2010

(poster) Can circadian rhythms influence the pace of embryo development? Cooper, C.B., Voss, M.A. (presenter), and H. Greeney. American Ornithologists' Union. Philadelphia, PA. August 2009

(invited talk, symposium) Shifting Priorities: Embryo Age Influences Parental Behavior. Voss, M.A. (presenter) and C. Cooper. American Ornithologists Union, Portland, OR. August 2008.

(invited talk, symposium) Heating vs. Eating: Latitudinal Constraints on Parent-Embryo Trade-Offs. Cooper, C (presenter) and M.A. Voss. American Ornithologists Union, Portland, OR. August 2008.

The Adaptive Significance of Thermally Inefficient Male Incubation. Voss, M.A. (presenter). Wilson Ornithological Society, Mobile, AL. April 2008.

The Effect of Clutch Volume on Incubation Period in Black Brant. Wolfe, K (presenter), MA Voss, P Lemons, and J Sedinger. North American Ornithological Congress, Vera Cruz Mexico, October 2006

Thermal Environment and Physiological Constraints on Incubation as Influences on Geographic Variation in Clutch Size. Cooper, C (presenter), W. Hochacka, M. Voss, and A. Dhondt. 24th International Ornithological Congress, Hamburg, Germany, August 2006

Use of mtDNA to Identify Genetic Introgression among Related Species of Catfish Fish. Hunnicutt, DW (presenter), Cingolani, J, and MA Voss. Tumors Related to Great Lakes Areas of Concern Conference, Sea Grant, Erie, PA. October 2005

Are Male Barn Swallows Inefficient Egg Warmers or Effective babysitters? Who Benefits from Male Incubation? Voss, MA (presenter) International Society of Behavioral Ecologists, Jyväskylä, Finland. July 2004

Changes in Maternal Time Allocation over the Course of Incubation. Voss, MA (presenter) and S Ellis. Wilson Ornithological Society and Association for Field Ornithology, Delaware, OH. March 2003

- (poster) Male Incubation Behavior in a Breeding Colony of North American Barn Swallows. Kovatch, JJ (presenter), MA Voss, and K Moll. International Society of Behavioral Ecologists, Enhanced Embryonic Development Session, Montreal, July 2002
- Hot Chicks in Cool Places: Methods to Find Effective Equilibrium Temperatures in Endothermic Animals. Kovatch, J (presenter), FR Hainsworth, MA Voss, and KM Moll. Syracuse University Thornfield Conference, Cazenovia, NY. 2000
- The Functional Dynamics of Egg Incubation. Voss, MA (presenter) and FR Hainsworth. Syracuse University Thornfield Conference, Cazenovia, NY. 1998
- (poster) Incubation, Foraging, and the Costs for Not Being Perfect. Voss, MA (presenter), S MacLean, and FR Hainsworth. Optimal Foraging Conference, Santa Cruz, CA. 1998
- Time and Heat Allocations During Intermittent Incubation by Yellow-Eyed Juncos (*Junco phaeonotus*). Voss, MA (presenter), T Hainsworth, FR Hainsworth, KA Sullivan, and WW Weathers. Canadian Society of Zoologists, London, Ontario. May 1997
- (poster) Arthropod Plumbing and Heat: SunDriven Thermosiphon Ventilation in the Simple Nest Structure of a North American Ant.” Voss, MA (presenter) and JS Turner. Canadian Society of Zoologists, London, Ontario, Canada. May 1997
- Sun Driven Thermosiphon in the Ventilation of the Simple Nest Structure of the Allegheny Mound-Building Ant, *Formica exsectoides* (Hymenoptera: Formicidae). Voss, MA (presenter) and JS Turner. Eastern Branch Entomological Society of America, Burlington, VT. 1997
- Arthropod Architects of Northern Namibia. Voss, MA (presenter) and JS Turner. Annual Entomological Society of America Conference, Lexington, KY. 1996
- Nest Ventilation in the Allegheny Mound-Building Ant, *Formica exsectoides*. Voss, MA (presenter) and JS Turner. New York Natural History Conference IV, Albany, NY. 1996

SEMINARS, WORKSHOPS, AND COLLOQUIA

- Invited participant National Science Foundation – National Evolutionary Center Meeting. Anthropogenic Sensory Stimuli as Drivers of Evolution: A conceptual synthesis and roadmap for an integrated citizen-science research network. April 2014, Duke University
- (invited presentation/panelist) Innovative teaching in ornithology. American Ornithologists’ Union, Philadelphia PA August 2009.
- Bioacoustics Workshop, Wilson Ornithological Society and American Field Ornithology Annual Meeting, Ithaca New York. April 2004
- Annual Meeting of the Association of Field Ornithologists, Delaware, Ohio. March 2003.
- Grant Writing Workshop, Council on Undergraduate Research Institute on Proposal Writing, Wooster, OH. July 2003.
- Bird Identification Workshop, United States Fish and Wildlife Service’s Annual Coordination Meeting for the National Grassland Breeding Bird Survey, Patuxent, MD. April 2003.
- Grant Writing Workshop, Council on Undergraduate Research Dialogues Conference, Fairfax, VA. February 2003.
- Fish Tumors Related to Great Lakes Areas of Concern Conference, Sea Grant, Erie, PA. January 2003.
- Chair, Contributed Paper Session on Egg Size, International Society for Behavioral Ecology Conference, Montreal, Canada. July 2002.
- State University of New York Medical School’s Summer Workshop on Molecular Genetics, Syracuse, NY. June 2002.
- Botulism Working Group Meeting, State University of New York, Fredonia, NY. May 2002.

Great Lakes Research Consortium's Faculty-Student Conference, State University of New York-Environmental Science and Forestry, Syracuse, NY. March 2002.

National Science Foundation's Summer Workshop: New Approaches for Teaching Science, Bradford, PA. July 2001.

Great Lakes Research Consortium's Faculty-Student Conference, State University of New York-Environmental Science and Forestry, Syracuse, NY. March 2001.

National Science Foundation Model Institutes for Excellence Conference, Oglala Lakota College at Pine Ridge, Rapid City, SD. April 1999.

Gateway Fellowship Student Forum on Teaching and Learning, Syracuse University, Syracuse, NY. February 1999.

Speaking Engagements – Invited

Invited Lecture, SUNY Potsdam Biology Seminar Series, You are when you eat - How Clock and Diet Interactions Influence Metabolic Health: October 20, 2014

The faculty and student relationship, Behrend College Teaching Seminar, M.A. Voss (presenter) and Jim Kurre (presenter) Erie PA 9/20/2010 & 9/23/2010

From hummingbirds to turkeys: How body size constrains avian incubation rhythms. C. Cooper (presenter) and M.A. Voss. Wells College, Aurora NY. October 2008.

Quantifying the Compromise between Foraging and Incubation: Do Developing Embryos Influence Parental Behavior? University of Boise Colloquium, Boise, ID. March 2007.

Shifts in Incubation Patterns during Embryonic Development: Quantifying the Compromise between Foraging and Incubation. Biology Seminar Series, Slippery Rock University, Slippery Rock, PA, October 2005

The Effect of Urban Noise on Breeding Behavior and Reproductive Success in Songbirds. Alfred University Environmental Science Seminar Series, Alfred, NY. September 2003.

Transitioning from Teaching Associate to Faculty. Keynote address, Future Professoriate Project Commencement Luncheon, Syracuse University, Syracuse, NY. May 2002.

Mentoring: A Collaboration of Individual Success. Keynote address, Collegiate Science and Technology Entry Program; Teacher Opportunity Corps Award Ceremony, State University of New York, Potsdam, NY. April 2002.

Novel Mechanisms of Colonial Respiration in Social Insects. Indian Creek Nature Center, 25th Anniversary Lecture, Ogdensburg, NY. April 2002.

The Sheltering Desert: Life in the Arid Biomes of Southern Africa. Geology Club Brown Bag Seminar, State University of New York, Potsdam, NY. 2001.

Two Parent Versus Single Parent Incomes: Is Intermittent Incubation Bad for Your Offspring? Clarkson University Biology Seminar Series, Potsdam, NY. 2000.

Single Parent Birds in the 90's: The Effect of Parental Behavior on Avian Development. Pathways to Knowledge Lecture Series, Syracuse University, Syracuse, NY. 1999.

SERVICE

Government Agencies

FUNDED PROJECTS, GRANTS, COMMISSIONS, AND CONTRACTS

Internal Coincidence of Endogenous Circadian Clocks in the Avian Brain and Ovary. MA Voss (PI), P. Bartell (Co-PI). \$10,000. The Pennsylvania State University Research Collaboration Fellowship (UP) February 2011.

Effects of Urban Noise on Breeding Behavior and Reproductive Success in Songbirds. American Association for University Women, Short Term Publication Grant, \$6,000. July 2004.

The Effect of Urban Noise on Extrapair Paternity in a Socially Monogamous Bird Species: An Analysis of Microsatellite Markers in Black-Capped Chickadees. Penn State Erie, The Behrend College Research Incentive Grant for Early Career Faculty, \$2,000. December 2003

Presence and Significance of Hybridization in a Population of Brown Bullhead Catfish in Presque Isle Bay. Hunnicutt, D. (PI) and M.A. Voss (co-PI). Pennsylvania Sea Grant, \$3,000. July 2003.

2003 Grassland Breeding Bird Survey on the Erie National Wild-life Refuge. United States Fish and Wildlife Service, \$500. May-June 2003.

The Effect of Polychlorinated Biphenyl (PCB) Contamination on Passerine Reproductive Behavior and Embryo Development. Clarkson University Research Experience for Undergraduates in Environmental Sciences and Engineering Project, \$1,000. June 2002.

The Physiological Basis for Microhabitat Selection in Salamander Species of Northern New York. Faculty-Undergraduate Summer Research Program, State University of New York, Potsdam, NY, \$2,500. 2001.

The Effects of Polychlorinated Biphenyl (PCB) Contaminated Wetlands on Avian Incubation Behavior and Embryonic Development. Research and Creative Endeavors Program, State University of New York, Potsdam, NY, \$1,500. 2000-2001.

A Comparative Study of Physiology and Behavior in Sympatric Species of North American Salamanders.

State University of New York-Potsdam Mini-Grant Program, \$500. 2000

Proposed -Not Funded

National Science Foundation - IOS Preliminary Proposal: You Are When You Eat: How Clock and Diet Interactions Influence Metabolic Health and Induce Spendthrift Phenotypes C. Cooper (PI), M.A. Voss (Co-PI), V. Cassone (Co-PI), submitted 1/27/2014

Central and peripheral clock regulation of songbird clutch size, C. Cooper (PI) P. Bartell (Co-PI), V. Cassone (Co-PI), M.A. Voss (Co-PI), D. Winkler (Co-PI), pre-proposal, National Science Foundation, submitted 1/12/2012

Monitoring Lake Erie Coastal Wetlands, J. Schnars (PI), Collaborators: R. Whyte, D. Klarer, J. Bissell, B. Mitsch, J. Holomuzki, C. Bocetti, K. Stanford, K. Bekker, S. Ludsin, M. Voss, J. Titus, K. Kaczmarek, M. Martz, H. Leslie, H. Best, S. Arrigo Nelson, \$2,902,161 Great Lakes Restoration Initiative- I.D.3. Monitoring Great Lakes Coastal Wetlands Grant Program, 1/31/2010

The regulation of latitudinal trends in clutch size and oviposition patterns of birds via internal coincidence of endogenous circadian clocks in the brain & ovary, P. Bartell (PI), M.A. Voss (Co-PI), \$706,956, National Science Foundation, 7/12/2010

MRI-R2: Advanced Instrumentation to Support Peer-Reviewed Faculty Research in Undergraduate Biology and Chemistry Programs. MA. Voss (PI), M. Campbell (coPI), B. Potter, M. Kociolek, and M. Justik. National Science Foundation \$352,609 for two years, August 2009

Teaching Biodiversity Through the Integration of Multiple Courses. Campbell, M.A. (principal investigator), Q. Dunsworth (co-principal investigator), S.J. Ewing (co-principal investigator), B.A. Potter (co-principal investigator), and M.A. Voss (co-principal investigator). NSF, \$157,269. 5/2008.

RUI: The Molecular Characterization of Bacterial Communities in Pre- and Post-Fledge Nest Material from North American Passerines. Hunnicutt, D. (P.I.), M. Campbell (Co-P.I.), and MA Voss (Co-PI). NSF, Microbial Observatories and Microbial Interactions and Processes Program, \$363,345. 10/2005

Egg physiology as a constraint on clutch size: A temperate range-wide study of Eastern bluebirds. A. Dhondt (PI), MA Voss, C. Cooper, W. Hochachka (Co-PIs). NSF, \$904,700.00, 01/2005

Does egg physiology drive clutch size trends? A continent-wide study. A. Dhondt (PI), MA Voss, C. Cooper, W. Hochachka (Co-PIs). NSF, \$714,104 7/2004

RUI: The Effect of Urban Noise on Breeding Behavior and Reproductive Success in Songbirds. NSF, Research in Undergraduate Institutions, MA Voss (PI) \$394,714. 12/2003

Identification, Protection, and GIS Analysis of Turtle Nesting Sites and Movements of Nesting Females in Northwestern Pennsylvania. Schnars, J (PI) and MA Voss (co-PI). Bureau of Wildlife Management, Pennsylvania Game Commission. \$206,627. 11/2002

FUNDED UNDERGRADUATE STUDENT RESEARCH GRANTS SUPERVISED

More than 50 projects funded through intra- and extramural grants (\$85,000) for undergraduate research

Projects have resulted in more than 70 student presentations at undergraduate research conferences as well as national professional societies in the past 12 years
